Program Notes

- Applicants will be issued an Insurance Certificate evidencing coverage under the NCMN’s Master Policy
- Territorial Limit: For services provided in Canada only

As *Case Managers and health care professionals*, NCMN members have liability exposure as a result of conducting their duties and responsibilities. Some of these include:

- Making recommendations
- Judgment calls
- Dispensing of information and advice
- Completion of medical and health reports
- Dealing with delays in service
- Protection for your personal assets, career momentum and most importantly – your reputation!
- The definition of insured services under the program is specific to case management, resulting in lower rates and coverage directed to Case Managers, unlike other programs that cater to a broad spectrum of rehabilitation professionals and in turn charge higher premiums.
